

SONG LYRICS

'OUR CALL'

OUR CALL

Ooohh (melodic)

We are one daughter, we are one son
Come hear the children cry, on the street
Let's go together, with a caring heart
Release open destiny, for this is our call
(repeat)

Ooohh (melodic)

Spoken Interlude

We believe that we can make a difference
From the darkness into the shining light
Hear the voice calling, to fight for Africa
If you believe that we can make it,
Come on and join us.

We are one daughter, we are one son
Come hear the children cry, on the street
Let's go together, with a caring heart
Release open destiny, for this is our call

Ooohh (melodic)

'Written by a member of the choir, this song is a call for us to continue to work together in helping the most vulnerable. Narrated by Arnold Muwonge (Founder of Kampala Children's Centre) this song also provides a backdrop to the huge need and many challenges children face in parts of Uganda.

NOTE: This song is during the performance, not an encore, so pupils would be guided onto the stage at the appropriate time. It also has a video accompaniment that is played over the top as the choir perform.
