

SONG LYRICS

'WHENEVER YOU WANT ME'

VERSE 1

I know you're more than I'll ever be
In every way I want to be like you
I know you'll always be there for me
You understand whatever I go through
You give me everything I need - everyday
You are the only one for me - so I say

CHORUS

*Whenever you want me - I will be there
And wherever you lead me – I will go
Whatever you tell me – I want to do
There is no denying, you find a way to my heart*

VERSE 2

And when I'm looking at what you did
I know that I can hardly believe it
And when I see all the love you give
I can't deny, I want to receive it
You came for me to save my life – from this world
Your love is more than I should have – or deserve

CHORUS

BRIDGE

And I know I will live forever
In the end we will be together
Now I can see who you are
And I know I will always love you
If I knew all the things that you do
You find a way to my heart

CHORUS x 2

From Destiny Africa's very first album in 2006, this song is often requested. With a memorable tune and great words, 'Whenever You Want Me' is a favourite schools track to learn and perform with the choir.

NOTE: This song can be part of an encore at the end of the show.
